

# SAFETY DATA SHEET

# 1. Identification

Product identifier	Ethyl Acetate	
Other means of identification		
CAS number	141-78-6	
Synonyms	Acetic acid ethyl ester	
Recommended use	General purpose solvent.	
Recommended restrictions	Use in accordance with manufacturer's recom	mendations.
Manufacturer/Importer/Supplier/	Distributor information	
Company Name	Greenfield Global USA Inc.	
Address	1101 Isaac Shelby Drive	
	Shelbyville, KY 40065	
	USA	
Telephone	502.232.7600	
Fax	502.633.6100	
Company Name	Greenfield Global USA Inc.	
Address	58 Vale Road	
	Brookfield, CT 06804	
	USA	
Telephone	203.740.3471	
Fax	203.740.3481	
Emergency phone number		
USA	CHEMTREC: 1.800.424.9300 (CCN 17213)	
International	CHEMTREC: +1.703.527.3887 (CCN 17213)	
2. Hazard(s) identification		
Physical hazards	Flammable liquids	Category 2
Health hazards	Serious eye damage/eye irritation	Category 2
	Specific target organ toxicity, single exposure	Category 3 narcotic effects
OSHA defined hazards	Not classified.	
Label elements		
	$\checkmark$ $\checkmark$	
Signal word	Danger	

Signal word Hazard statement

Danger Highly flammable liquid and vapor. Causes serious eye irritation. May cause drowsiness or dizziness.

#### Precautionary statement Prevention

Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist/vapor. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear protective gloves/eye protection/face protection.

Response	If on skin (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. If inhaled: Remove person to fresh air and keep comfortable for breathing. Call a poison center/doctor if you feel unwell. In case of fire: Use appropriate media to extinguish.
Storage	Keep cool. Store in a well-ventilated place. Keep container tightly closed. Store locked up.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Hazard(s) not otherwise classified (HNOC)	None known.
Supplemental information	None.

#### 3. Composition/information on ingredients

Substances

4. First-aid measures         Inhalation       Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a position contact         Skin contact       Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.         Eye contact       Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.         Most important symptoms/offects, acute and delayed       May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.         Symptoms/offects, acute and delayed       Provide general supportive measures and treat symptomatically. Thermal burns: Flush with immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.         General information       Take off all contaminated clothing immediately. Ensure that medical personnel are aware or material(s) involved, and take precautions to protect themselves. Wash contaminated cloth before reuse. Show this safety data sheet to the doctor in attendance.         5. Fire-fighting measures       Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2). Do not use water jet as an extinguisher, as this will spread the fire.         Specific hazards arising from the chemical       Self-contained breathing apparatus and full protective clothing must be worn in case of fi	Chemical name	Common name and synonyms	CAS number	%

	General fire hazards	Highly flammable liquid and vapor.		

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist/vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools. The product is soluble in water.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.
Conditions for safe storage, including any incompatibilities	Store locked up. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

# 8. Exposure controls/personal protection

#### Occupational exposure limits

#### US. OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Material	Type	Value
Ethyl acetate (CAS 141-78-6)	PEL	1400 mg/m3
		400 ppm
US. ACGIH Threshold Lim	it Values	
Material	Туре	Value
Ethyl acetate (CAS 141-78-6)	TWA	400 ppm
US. NIOSH: Pocket Guide	to Chemical Hazards	
Material	Туре	Value
Ethyl acetate (CAS 141-78-6)	TWA	1400 mg/m3
		400 ppm
ological limit values	No biological exposure limits noted	for the ingredient(s).
propriate engineering ntrols	Explosion-proof general and local exhaust ventilation. Good general ventilation should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station and safety shower.	
lividual protection measure	s, such as personal protective equipr	
Eye/face protection	Chemical goggles are recommende	d.
Skin protection		
Hand protection		t gloves. Suitable gloves can be recommended by the glove ay penetrate the gloves. Frequent change is advisable.
Skin protection		
Other	Wear appropriate chemical resistant	t clothing.
Respiratory protection	If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Respirator type: Chemical respirator with organic vapor cartridge and full facepiece.	

Ethyl Acetate

Thermal hazards	Wear appropriate thermal protective clothing, when necessary.
-----------------	---

General hygiene considerations

When using do not smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

### 9. Physical and chemical properties

Appearance	
Physical state	Liquid.
Form	Liquid.
Color	Colorless, clear.
Odor	Not available.
Odor threshold	Not available.
рН	Not available.
Melting point/freezing point	-119.2 °F (-84 °C)
Initial boiling point and boiling range	170.6 °F (77 °C)
Flash point	24.8 °F (-4.0 °C) Closed Cup
Evaporation rate	Not available.
Flammability (solid, gas)	Not applicable.
Upper/lower flammability or exp	losive limits
Flammability limit - lower (%)	2 % v/v
Flammability limit - upper (%)	11.5 % v/v
Vapor pressure	97.3 hPa (68 °F (20 °C))
Relative density	0.902 (77 °F (25 °C))
Solubility(ies)	
Solubility (water)	Soluble.
Auto-ignition temperature	798.8 °F (426 °C)
Decomposition temperature	Not available.
Viscosity	Not available.
Other information	
Explosive properties	Not explosive.
Molecular formula	C4-H8-O2
Molecular weight	88.11 g/mol
Oxidizing properties	Not oxidizing.
10 Stability and reactivity	

#### 10. Stability and reactivity

Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.
Chemical stability	Material is stable under normal conditions.
Possibility of hazardous reactions	Hazardous polymerization does not occur.
Conditions to avoid	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidizing agents. Nitrates. Acids. Alkalis.
Hazardous decomposition products	No hazardous decomposition products are known.

#### 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Prolonged inhalation may be harmful.
Skin contact	Repeated exposure may cause skin dryness or cracking.
Eye contact	Causes serious eye irritation.

Expected to be a low ingestion hazard.

Ingestion Symptoms related to the physical, chemical and toxicological characteristics

May cause drowsiness and dizziness. Headache. Nausea, vomiting. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

#### Information on toxicological effects

Acute toxicity	Not expected to be acutely toxic.		
Product	Species	Test Results	
Ethyl acetate (CAS 141-78-6)			
<u>Acute</u>			
Dermal			
LD50	Rabbit	> 18000 mg/kg	
Inhalation			
Vapor			
LC50	Rat	58.6 mg/l, 4 hours	
Oral			
LD50	Rat	10170 mg/kg	
Skin corrosion/irritation	Prolonged skin contact may cause	temporary irritation.	
Serious eye damage/eye irritation	Causes serious eye irritation.	Causes serious eye irritation.	
Respiratory or skin sensitizatio	n		
Respiratory sensitization	Not a respiratory sensitizer.		
Skin sensitization	This product is not expected to cau	se skin sensitization.	
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.		
Carcinogenicity	Not classifiable as to carcinogenicit	y to humans.	
IARC Monographs. Overall	Evaluation of Carcinogenicity		
Not listed.			
NTP Report on Carcinogen	S		
Not listed.	ed Substances (29 CFR 1910.1001-1	053)	
Not regulated.			
Reproductive toxicity	This product is not expected to cau	se reproductive or developmental effects.	
Specific target organ toxicity -	May cause drowsiness and dizzine		
single exposure			
Specific target organ toxicity - repeated exposure	Not classified.		
Aspiration hazard	Not an aspiration hazard.		
Chronic effects	Prolonged inhalation may be harmf	ul.	
12. Ecological information	n		
Ecotoxicity		ironmentally hazardous. However, this does not exclude the lls can have a harmful or damaging effect on the environment	
Persistence and degradability	No data is available on the degrada	ability of this substance.	
Bioaccumulative potential	No data available on bioaccumulati	on.	
Mobility in soil	The product is soluble in water.		
Other adverse effects		ects (e.g. ozone depletion, photochemical ozone creation bal warming potential) are expected from this component.	
13. Disposal consideratio	ns		
Disposal instructions	Dispose of contents/container in ac Collect and reclaim or dispose in se	cordance with local/regional/national/international regulations ealed containers at licensed waste disposal site. Incinerate th s in an approved incinerator. Do not incinerate sealed	
Least disconstructions	Dispass in accordance with all appl	iachla regulationa	

Dispose in accordance with all applicable regulations. Local disposal regulations

Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
US RCRA Hazardous Waste	U List: Reference
Ethyl acetate (CAS 141-7	'8-6) U112
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.
