

**GMO STATEMENT**  
(PPS182, Rev. 1.7, 02/18, KMC)

Wood derived Alcohol is certified Kosher for Passover and is derived from wood. This product and the raw materials used are not derived from or contain any Genetically Modified Organisms (GMO).

This alcohol is produced from the sugar byproduct in the pulping operation of trees. The raw material (wood chips) are obtained from the natural forests of Canada. The pulp mill, which is the source of the sugar as well as our alcohol, is certified by the Forestry Stewardship Council (FSC). The FSC does not allow any Genetically Modified trees to be used, therefore this product is not made from, nor does it contain any GMOs.

In addition, each phase of the operation is certified Kosher by a duly authorized and recognized rabbinical authority. Therefore, proper measures for the segregation and handling of this product are in force.

Due to the strict kosher standards of manufacturing, processing and handling, which Kosher for Passover Alcohol must meet, and the source and process of alcohol production, this is a GMO-free process.

In addition, the following claims can be made concerning Wood derived Alcohol (Kosher for Passover Alcohol):

- 1.) There are no additives flavorings or ingredients in the product that are derived from genetically modified organisms or from use of genetically modified organisms.
- 2.) There are no additives, flavorings or ingredients in the product likely to contain DNA and or protein resulting from genetic modification.
- 3.) There is no possibility of the presence of DNA and or protein resulting from genetic modification due to extrinsic source, outside contamination or any other means or venues.
- 4.) Random samples of wood derived alcohol were submitted for independent evaluation. The analyses for presence of genetically modified organisms were negative.

This statement is valid and in effect for all products and lot numbers described herein until otherwise notified in writing by Greenfield Global USA Inc.
