

## BSE/TSE STATEMENT

April 13, 2017

RE: **BSE/TSE Statement – MCT-Medium Chain Triglyceride**

**To Whom It May Concern:**

The ingredients and the sources of these ingredients for MCT-Medium Chain Triglyceride have been researched for origin. The product is produced from chemicals that have no origin from animal sources. There are no components derived from the brain, spinal cord, bone marrow and eyes. The raw materials for this product are derived from vegetal sources. To the best of our knowledge, there should be no Bovine Spongiform Encephalopathy (BSE)/Transmissible Spongiform Encephalopathy (TSE) issues with this product because of the sources of raw materials.

If we can be of further assistance, please do not hesitate to contact us.

Best regards,

Daisy M. Marseille
