

+1.703.527.3887 (INT)

# SAFETY DATA SHEET

SDA 38F, Version 1, 190 PROOF
This SDS is valid for all grades and catalog #s

## 1. IDENTIFICATION OF SUBSTANCE / MIXTURE AND OF SUPPLIER

**Product Identifier:** Denatured Ethanol

Synonyms: Denatured Alcohol 38F-Version 1; SDA 38F- Version 1

Other means of identification: CAS No. 64-17-5

EINECS No. 200-578-6

Recommended use of the chemical and restrictions on use:

General purpose organic solvent

**Supplier Details:** 

Greenfield Global USA, Inc. Greenfield Global USA, Inc.

58 Vale Road, Brookfield, 1101 Isaac Shelby Drive, Shelbyville,

CT 06804, USA.

Tel: 203.740.3471

Fax: 203.740.3481

KY 40065, USA.

Tel: 502.232.7600

Fax: 502.633.6100

CCN17213 CCN17213

Emergency Contact: CHEMTREC: 1.800.424.9300 (USA) / +1.703.527.3887 (International)

#### 2. HAZARDS IDENTIFICATION

#### **Emergency Overview:**

This material is HAZARDOUS by OSHA Hazard Communication definition. Flammable Liquid. Material can burn with little or no visible flame. May be irritating to the eyes, skin, and respiratory system. May cause central nervous system depression.

#### **OSHA Hazards:**

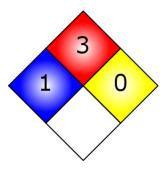

Flammable liquid, Target Organ Effect, Irritant

#### **Target Organs:**

Central nervous system, Heart, Liver

Product Information: 203.740.3471 Emergency Assistance (CHEMTREC): 1.800.424.9300 (USA)
NFPA +1.703.527.3887 (INT)

## GHS label elements, including precautionary statements

## Signal Word:

DANGER!

#### **Hazard statement(s)**

H225 H335

Highly flammable liquid and vapor. May cause respiratory irritation.

## Precautionary statement(s)

P261

P210

P305 + P351 + P338

Avoid breathing dust/fumes/gas/mist/vapors.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek

medical attention.

Keep away from heat, sparks, open flames, and hot surfaces. No

smoking.

## **GHS Classification(s)**

Eye irritation (Category 2B)
Flammable Liquids (Category 2)
Skin irritation (Category 2)

## Other hazards which do not result in classification:

#### **Potential Health Effects:**

**ETHANOL** 

Organ	Description +1.703.527.3887 (INT)
Eyes	Causes eye irritation. May cause painful sensitization to light. May cause chemical conjunctivitis and corneal damage.
Ingestion	May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause systemic toxicity with acidosis. May cause central nervous system depression, characterized by excitement, followed by headache, dizziness, drowsiness, and nausea. Advanced stages may cause collapse, unconsciousness, coma and possible death due to respiratory failure.
Inhalation	High concentrations may cause central nervous system effects characterized by nausea, headache, dizziness, unconsciousness and coma. Causes respiratory tract irritation. May cause narcotic effects in high concentration. Vapors may cause dizziness or suffocation.
Skin	Causes moderate skin irritation. May cause dermatitis by de-fatting the skin from prolonged or repeated contact.

## 3. COMPOSITION AND INFORMATION ON INGREDIENTS

Chemical identity: Alcohol

Common name / Synonym: Denatured Alcohol 38F-Version 1; SDA 38F-Version 1

 CAS number:
 64-17-5

 EINECS number:
 200-578-6

 ICSC number:
 0044

 RTECS #:
 KQ6300000

UN #: UN1170 EC #: 603-002-00-5

% Weight	Material	CAS
91.08	Ethyl Alcohol	64-17-5
0.58	Peppermint Oil	8006-90-4
0.51	Polysorbate 80	9005-65-6
0.36	Spearmint Oil	8008-79-5
7.47	Water	7732-18-5

## 4. FIRST AID MEASURES

#### General advice

Take proper precautions to ensure your own health and safety before attempting rescue and providing first aid. Consult a physician. Show this safety data sheet to the doctor in attendance. Move out of dangerous area.

#### Skin

Immediately flush affected area with plenty of water while removing contaminated clothing. Wash contaminated clothing before reuse. Contact a doctor. If irritation persists, get medical attention.

#### Inhalation

Remove person to fresh air. If signs/symptoms continue, get medical attention. Give oxygen or artificial respiration as needed.

# Product Information: 203.740.3471 Emergency Assistance (CHEMTREC): 1.800.424.9300 (USA) +1.703.527.3887 (INT)

Thoroughly flush the eyes with large amounts of clean low-pressure water for at least 15 minutes, occasionally lifting the upper and lower eyelids. If irritation persists, seek medical attention.

## Ingestion

DO NOT induce vomiting. If vomiting does occur, have victim lean forward to prevent aspiration. Rinse mouth with water. Seek medical attention. Never give anything by mouth to an unconscious individual.

## Note to Physician

Symptoms vary with alcohol level of the blood. Mild alcohol intoxication occurs at blood levels between 0.05- 0.15 %. Approximately 25% of individuals show signs of intoxication at these levels. Above 0.15% the person is definitely under the influence of ethanol; 50-95% of individuals are clinically intoxicated at these levels. Severe poisoning occurs when the blood is ethanol level is 0.3- 0.5%. Above 0.5% the individual will be comatose and death can occur. The unabsorbed ethanol should be removed by gastric lavage after intubating the patient to prevent aspiration. Avoid the use of depressant drugs or the excessive administration of fluids.

## 5. FIRE FIGHTING MEASURES

## Suitable (and unsuitable) extinguishing media:

SMALL FIRE: Use dry chemicals, CO2, water spray or alcohol-resistant foam. LARGE FIRE: Use water spray, water fog or alcohol-resistant foam. Cool all affected containers with flooding quantities of water.

## Specific hazards arising from the chemical (e.g., nature of any hazardous combustion products):

Carbon monoxide is expected to be the primary hazardous combustion product.

## Special protective equipment and precautions for firefighters:

Wear self-contained breathing apparatus and protective clothing to prevent contact with skin and eyes. Keep unopened containers cool by spraying with water.

#### **Unusual Fire and Explosion Hazards:**

- May produce a floating fire hazard.
- Static ignition hazard can result from handling and use.
- · Vapors may settle in low or confined spaces.
- Vapors may travel to source of ignition and flash back.

Alcohols burn with a pale blue flame which may be extremely hard to see under normal lighting conditions. Personnel may only be able to feel the heat of the fire without seeing flames. Extreme caution must be exercised in fighting alcohol fires. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Cool containers with flooding quantities of water until well after fire is out. Withdraw immediately in case of rising sound from venting safety devices or discoloration of tank. Always stay away from tanks engulfed in fire.

# Flammable Properties

Classification

OSHA/NFPA Class IB Flammable Liquid.

Product Information: 203.740.3471 Emergency Assistance (CHEMTREC): 1.800.424.9300 (USA) Flash point +1.703.527.3887 (INT)

17°C (62°F) - closed cup

**Autoignition temperature** 

363.0 °C (685.4 °F) - (Ethyl Alcohol)

## 6. ACCIDENTAL RELEASE MEASURES

## Personal precautions, protective equipment and emergency procedures:

Do not inhale vapors, mist or gas. Ensure adequate ventilation. Remove all sources of ignition. Evacuate personnel to safe areas. Beware of vapors accumulating to form explosive concentrations. Vapors can accumulate in low areas.

## **Environmental precautions:**

Stop leak. Contain spill if possible and safe to do so. Prevent product from entering drains.

## Methods and materials for containment and cleaning up:

Highly flammable liquid. Eliminate all sources of ignition. All equipment used when handling this product must be grounded. A vapor suppressing foam may be used to reduce vapors. Do not touch or walk through spilled material. Contain spillage, and then collect with non-combustible absorbent material, (e.g. sand, earth, diatomaceous earth, vermiculite) and place in container for disposal according to local / national regulations. Use clean non-sparking tools to collect absorbed material.

## 7. HANDLING AND STORAGE

#### Precautions for safe handling:

Do not get on skin or in eyes. Do not inhale vapor or mist. Keep away from sources of ignition - No smoking. Take measures to prevent the buildup of electrostatic charge. Open and handle container with care. Metal containers involved in the transfer of this material should be grounded and bonded.

## Conditions for safe storage, including any incompatibilites:

Keep container tightly closed in a cool, dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Consult local fire codes for additional storage information.

## 8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Control parameters, e.g., occupational exposure limit values or biological limit values:

#### **Occupational Exposure Limits**

<b> </b>				
Component	Source	Type	Value	Note
Ethyl alcohol	US (OSHA)	TWA	1000 ppm / 1,900 mg/m3	29 CFR 1910.1000 Table Z-1 Limits for Air Contaminants.

				, , , , , , , , , , , , , , , , , , , ,
Ethyl alcohol	US (ACGIH)	STEL	1000 ppm	Upper Respiratory ችላታ ዕን ያልተን 388 ም (ነነጻታ) animal carcinogen with unknown relevance to humans
Ethyl alcohol	US (OSHA)	IDHL	3300 ppm	None
Peppermint Oil	1		No exposure limit	
Polysorbate 80	1		No exposure limit	
Spearmint Oil	1		No exposure limit	

## Appropriate engineering controls:

General room or local exhaust ventilation is usually required to meet exposure limit(s). Electrical equipment should be grounded and conform to applicable electrical code.

## Individual protection measures, such as personal protective equipment:

## Respiratory protection:

Where risk assessment shows air-purifying respirators are appropriate use a full-face respirator with multi-purpose combination (US) or type ABEK (EN 14387) respirator cartridges as a backup to engineering controls. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate government standards such as NIOSH (US) or CEN (EU).

## Hand protection:

Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands.

#### Eye protection:

Use chemical safety goggles and/or a full face shield where splashing is possible. Use equipment approved by appropriate government standards, such as NIOSH (US) or EN166 (EU) Maintain eye wash fountain and quick-drench facilities in work area.

#### Skin and body protection:

Choose body protection according to the amount and concentration of the dangerous substance at the work place.

#### Hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday.

## 9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance (physical state, color, etc.)	Liquid. Colorless liquid / invisible vapor.
Odor	Sweet. Alcohol-like
Freezing point	-114°C (-173°F)
Initial boiling point and boiling range	78.3 °C (172.9 °F)
Flash point	17°C (62°F) - closed cup
Evaporation rate	Specific data not available - expected to be rapid.

Flammability (solid, gas)	Flammable +1 703	527.3887 (INT)
Upper / Lower flammability or explosive limits	- 117 001	<u>527.5557 (1141)</u>
Vapor pressure	59.5 hPa (44.6 mmHg) at 20 °C (68 °F) (for 100%	ethanol)
Vapor Density	1.6	
Relative Density	0.796 g/mL at 25 °C (77 °F)	
Solubility(ies)	completely soluble	
Auto-ignition temperature	363°C (685.4°F) - (Ethyl Alcohol)	
Decomposition temperature	Not pertinent	
Formula (ETHANOL)	C2H6O	
Formula (PEPPERMINT OIL)	C10H16	
Formula (POLYSORBATE 80)	C64H124O26	
Formula (SPEARMINT OIL)	Not available	
Formula (WATER)	H2O	
Molecular Weight (ETHANOL)	46.07 g/mol	
Molecular Weight (PEPPERMINT OIL)	136.2 g/mol	
Molecular Weight (POLYSORBATE 80)	1,310 g/mol	
Molecular Weight (SPEARMINT OIL)	Not available	
Molecular Weight (WATER)	18.02 g/mol	

## 10. STABILITY AND REACTIVITY

Possibility of hazardous reactions	Vapors may form explosive mixture with air.
Conditions to avoid (e.g., static discharge,	Heat, flames, and sparks. Extreme temperatures and direct
shock or vibration)	sunlight.
Incompatible materials	Alkali metals, Ammonia, Oxidizing agents, Peroxides, Strong
incompatible materials	Inorganic Acids
Hazardous decomposition products	Hazardous decomposition products formed under fire conditions
nazardous decomposition products	Carbon oxides

## 11. TOXICOLOGICAL INFORMATION

## • Ethyl Alcohol 64-17-5

## Signs and Symptoms of Exposure

Central nervous system depression, narcosis, damage to the heart. To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.

## **Product Summary:**

Ethanol is not toxic by OSHA standards. Coingestion of sedative hypnotics or tranquilizers can increase the toxic affects of ethanol.

## **Acute Toxicity:**

LC50 (inhl) Rat 20000ppm 10 hrs.	
----------------------------------	--

LC50 (Oral)	Rat	7060mg/Kg BWT	+1.703.52	7.3887 (INT
LDLo (Oral)	Human	1400 mg/Kg BWT		

#### Irritation:

## **Eyes (ETHANOL)**

Eye exposure to Ethanol generally causes transient pain, irritation, and reflex lid closure. A foreign-body sensation may persist for one to two days. Vapors produce transient stinging and tearing, but no apparent adverse effects. Transiently impaired preception of color may occur with acute ingestion or chronic alcoholism. Standard Draize eye test (rabbit) - Dose: 500 mg Reaction: Severe Dose: 500 mg/24 hrs Reaction: Mild

#### Skin

Standard Draize skin test (rabbit) - Dose: 20 mg/24 hrs Reaction: Moderate Repeated exposure may cause skin dryness or cracking.

## Carcinogenicity

IARC: Not classifiable as a human carcinogen. ACGIH: Not classifiable as a human carcinogen. NTP: Not classifiable as a human carcinogen. OSHA: Not classifiable as a human carcinogen.

#### Other Hazards

Organ	Description
Eyes	Irritating to the eyes. May cause painful sensitization to light. May cause chemical conjunctivitis and corneal damage.
Ingestion	May cause gastrointestinal irritation with nausea, vomiting and diarrhea. May cause systemic toxicity with acidosis. Advanced stages can lead to respiratory failure, kidney failure, coma, and death.
Inhalation	Inhalation of high concentrations may cause central nervous system effects characterized by nausea, headache, dizziness, unconsciousness and coma. Causes respiratory tract irritation. May cause narcotic effects in high concentration. Vapors may cause dizziness or suffocation.
Skin	Mildly irritating to the skin. May cause dermatitis by de-fatting the skin from prolonged or repeated contact.
Chronic	Prolonged exposure can cause liver, kidney, and heart damage. Long term exposure can cause loss of appetite, weight loss, nervousness, memory loss, mental retardation.

#### Water 7732-18-5

#### **Product Summary:**

Do data available for the teratogenic, mutagenic, or reproductive toxicity effects of this product.

## Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified 527 38970 (INT) or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### Other Hazards

Organ	Description
Inhalation	May cause respiratory tract irritation upon inhalation.

#### Polysorbate 80 9005-65-6

## **Product Summary:**

Carcinogenic effects present in laboratory mice and rats. Reproductive effects present in laboratory mice and rats.

## **Acute Toxicity:**

LD50 (Oral)	Rat	63,840 mg/kg	

#### Irritation:

## **Eyes**

Rabbit - mild eye irritation - 24 hours

#### Skin

Rabbit - skin irritation - 24 hours

#### Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### Other Hazards

Organ	Description	
Eyes	It may cause eye irritation.	

	This material is not likely to cause irritation upon ingestion. It is classified as "relativerobastoress's (INT)
Ingestion	ingestion and considered to be a low ingestion hazard. Ingestion of very large doses may cause
	abdominal spasms and diarrhea.
Inholotion	No expected to be a health hazard. No irritation is expected to be associated with the inhalation of this
IIIIIaiation	material. No toxic effects are known to be associated with the inhalation of this material.
Skin	No irritation is expected, but it may cause mild/slight irritation in more sensitive individuals. It will
SKIII	probably not be absorbed through the skin.

#### • Spearmint Oil 8008-79-5

#### **Product Summary:**

No data available as to the mutagenic, teratogenic, or respiratory effects of Spearmint oil.

## **Acute Toxicity:**

LD50 (Oral)	Rat	5,000 mg/kg	

#### Irritation:

Skin

Rabbit - skin irritation - 24 hours

## Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### **Other Hazards**

Organ	Description	
Eyes Causes eye irritation.		
Ingestion Harmful if swallowed.		
Inhalation	Inhalation May be harmful if inhaled. Causes respiratory tract irritation.	
Skin Harmful if absorbed through skin. Causes skin irritation.		

## • Peppermint Oil 8006-90-4

#### **Product Summary:**

No data available for teratogenic, mutagenic, or reproductive effects.

SDS: 049 Revision Date: 06.15.15 Revision Number: 4.0 Initials: EF

**Acute Toxicity:** 

LD50 (Oral)	Rat	2,426 mg/kg	
-------------	-----	-------------	--

## Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as probable or confirmed human carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### Other Hazards

Organ	Description		
Eyes	Causes eye irritation. May cause loss of corneal epithelium, corneal infiltration, release of pigment into		
Lyes	the anterior chamber with deposits on the back of the cornea.		
May cause gastrointestinal tract irritation. May affect behavior/central nervous system (mild sti			
Ingestion	followed by depression, twitching, spastic convulsions, ataxia), and respiration (slowed respiration).		
	Other symptoms may include atrial fibrillation, muscle pain, cooling sensation, burning sensation.		
Inhalation	May be irritating to the respiratory tract.		
Skin	May be harmful if absorbed through skin. May be irritating to the skin.		

## 12. ECOLOGICAL INFORMATION

#### • Ethyl Alcohol 64-17-5

#### Ecotoxicity (aquatic and terrestrial, where available):

#### **Acute Fish toxicity (ETHANOL)**

LC50 / 96 HOUR Oncorhynchus mykiss (rainbow trout) > 10,000 mg/l LC50 / 96 HOUR Pimephales promelas (fathead minnow) > 13,400 mg/l

#### **Toxicity to aquatic plants (ETHANOL)**

Growth inhibition / 96 HOURS Chlorella vulgaris (Fresh water algae) 1,000 mg/l

## Toxicity to microorganisms (ETHANOL)

Toxicity Threshold / Pseudomonas putida 6,500 mg/l Summary: Inhibition of cell multiplication begins.

## 13. DISPOSAL CONSIDERATIONS

Description of waste residues and information on their safe handling and methods of disposal, including the disposal of any contaminated packaging:

Burn in a chemical incinerator equipped with an afterburner and scrubber but exert extra care in igniting as this material is highly flammable. Observe all federal, state, and local environmental regulations. Contact a licensed professional waste disposal service to dispose of this material.

## 14. TRANSPORT INFORMATION

Description of waste residues and information on their safe handling and methods of disposal:

UN number	UN1170
UN proper shipping name	Ethanol solutions
Transport hazard class(es)	3
Packing group (if applicable)	II

#### **IMDG**
