

# SAFETY DATA SHEET

# 1. Identification

Product identifier	SDAG-6, 95%		
Other means of identification			
Synonyms	Denatured alcohol * Specially denatured alcohol * Ethanol denatured with tertiary butanol and denatonium benzoate		
Recommended use	General purpose solvent.		
<b>Recommended restrictions</b> Refer to the alcohol control authority in which the product is to be used - Canada Revenue Age (Excise) in Canada, US Tax and Trade Bureau in the US, etc.			
Manufacturer/Importer/Supplier/	Distributor information		
Company name Greenfield Global Inc.			
Address	6985 Financial Drive		
	Missisauga, Ontario L5N 0G3		
Canada			
Telephone	(905) 790-7500		
Website	http://www.greenfield.com		
Emergency phone number CHEMTREC: 1-800-424-9300			

#### 2. Hazard identification

Physical hazards	Flammable liquids	Category 2
Health hazards	Serious eye damage/eye irritation	Category 2
Label elements		
Signal word	Danger	

• · g · · • · • · •	
Hazard statement	Highly flammable liquid and vapour. Causes serious eye irritation.
Precautionary statement	
Prevention	Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking. Keep container tightly closed. Ground and bond container and receiving equipment. Use explosion-proof electrical/ventilating/lighting equipment. Use non-sparking tools. Take action to prevent static discharges. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection.
Response	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice/attention. In case of fire: Use water fog, alcohol-resistant foam, dry chemical powder, carbon dioxide to extinguish.
Storage	Store in a well-ventilated place. Keep cool.
Disposal	Dispose of contents/container in accordance with local/regional/national/international regulations.
Supplemental information	None.
Other hazards	None known.

# 3. Composition/information on ingredients

**Mixtures** 

Chemical name	Common name and synonyms	CAS number	%
Ethanol		64-17-5	92.4
Other components below r	eportable levels		7.6

All concentrations are in percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.		
4. First-aid measures		
Inhalation Move to fresh air. Call a physician if symptoms develop or persist.		
Skin contact	Take off immediately all contaminated clothing. Rinse skin with water/shower. Get medical attention if irritation develops and persists.	
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.	
Ingestion	Rinse mouth. Get medical attention if symptoms occur.	
Most important Headache. Severe eye irritation. Symptoms may include stinging, tearing, redne blurred vision. Coughing.		
Indication of immediate medical attention and special treatment needed	Provide general supportive measures and treat symptomatically. Thermal burns: Flush with wa immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.	
General information	Take off all contaminated clothing immediately. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Wash contaminated clothing before reuse.	
5. Fire-fighting measures		
Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).	
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.	
Specific hazards arising from the chemical	Vapours may form explosive mixtures with air. Vapours may travel considerable distance to a source of ignition and flash back. During fire, gases hazardous to health may be formed. Combustion products may include: Carbon oxides.	
<b>Special protective equipment</b> Self-contained breathing apparatus and full protective clothing must be worn in c and precautions for firefighters		
<b>Fire fighting</b> <b>equipment/instructions</b> In case of fire and/or explosion do not breathe fumes. Move containers from fire area so without risk. Use water spray to keep fire-exposed containers cool.		
Specific methods Use standard firefighting procedures and consider the hazards of other involved ma		
General fire hazards	Highly flammable liquid and vapour.	
6. Accidental release meas	sures	
Personal precautions, protective equipment and emergency procedures Keep unnecessary personnel away. Keep people away from and upwind of spill/leak protective equipment and clothing, flares, sparks, or flames in immediate area). Wear app protective equipment and clothing during clean-up. Do not touch damaged container material unless wearing appropriate protective clothing. Ventilate closed spaces befor them. Local authorities should be advised if significant spillages cannot be contained protection, see section 8 of the SDS.		
Methods and materials for containment and cleaning up	Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil etc) away from spilled material. Take precautionary measures against static discharge. Use only non-sparking tools.	
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.	

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Environmental precautionsNever return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.Avoid discharge into drains, water courses or onto the ground.

# 7. Handling and storage

**Precautions for safe handling** Do not handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. When using do not smoke. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Avoid contact with eyes. Avoid prolonged exposure. Wear appropriate personal protective equipment. Observe good industrial hygiene practices. Keep away from heat, sparks and open flame. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a cool, dry place out of direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see section 10 of the SDS).

# 9. Physical and chemical properties

a. Enysical and chemical properties			
Appearance			
Physical state	Liquid.		
Form	Liquid.		
Colour	Colourless.		
Odour	Alcoholic.		
Odour threshold	Not available.		
рН	Not available.		
Melting point/freezing point	-115 °C (-175 °F) estimated		
Initial boiling point and boiling range	78.3 - 100 °C (172.94 - 212 °F)		
Flash point	16 °C (60.8 °F) Tag closed cup (ASTM D-56)		
Evaporation rate	1.7 (Butyl acetate = 1)		
Flammability (solid, gas) Not applicable.			
Upper/lower flammability or exp	losive limits		
Explosive limit - lower ( %)	3.3 % v/v (Ethanol)		
Explosive limit – upper (%)	19 % v/v (Ethanol)		
Vapour pressure	5.87 kPa (Ethanol)		
Vapour density	1.59 (air = 1)		
Relative density	0.81		
Relative density temperature	20 °C (68 °F)		
Solubility(ies)			
Solubility (water)	Complete		
Partition coefficient (n-octanol/water)	0.032 estimated		
Auto-ignition temperature	370 °C (698 °F) estimated		
Decomposition temperature	Not available.		
Other information			
Dynamic viscosity	1.35 cP		
Dynamic viscosity temperature	20 °C (68 °F)		
Explosive properties	Not explosive.		
Oxidising properties	Not oxidising.		
Percent volatile	100 %		
10. Stability and reactivity	,		
Reactivity	The product is stable and non-reactive under normal conditions of use, storage and transport.		
Chemical stability	Material is stable under normal conditions.		
Possibility of hazardous	No dangerous reaction known under conditions of normal use.		

reactions	
Conditions to avoid	Avoid heat, sparks, open flames and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.
Incompatible materials	Strong oxidising agents.
Hazardous decomposition products	No hazardous decomposition products are known.

#### 11. Toxicological information

#### Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.	
Skin contact	No adverse effects due to skin contact are expected.	
Eye contact	Causes serious eye irritation.	

SDAG-6, 95% 959249 Version #: 02 Revision date: 19-December-2023

Ingestion Expected to be a low ingestion hazard.	
Symptoms related to the physical, chemical and toxicological characteristics	Headache. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Coughing.

#### Information on toxicological effects

Acute toxicity Not expected to be acutely toxic.

Acute toxicity	Not expected to be acute	iy toxic.
Components	Species	Test Results
Ethanol (CAS 64-17-5)		
<u>Acute</u>		
Inhalation		
Vapour		
LC50	Rat	117 - 125 mg/l, 4 Hours
Oral		
LD50	Rat	10470 mg/kg
Skin corrosion/irritation	Prolonged skin contact m	ay cause temporary irritation.
Serious eye damage/eye irritation	Causes serious eye irritat	tion.
Respiratory or skin sensitisatio	n	
<b>Respiratory sensitisation</b>	Not a respiratory sensitis	ser.
Skin sensitisation	This product is not expec	ted to cause skin sensitisation.
Germ cell mutagenicity	No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.	
Carcinogenicity		
ACGIH Carcinogens		
Ethanol (CAS 64-17-5)		A3 Confirmed animal carcinogen with unknown relevance to humans.
Canada - Manitoba OELs: c	arcinogenicity	
Ethanol (CAS 64-17-5)		Confirmed animal carcinogen with unknown relevance to humans
Reproductive toxicity	This product is not expec	ted to cause reproductive or developmental effects.
Specific target organ toxicity - single exposure	Not classified.	
Specific target organ toxicity - repeated exposure	Not classified.	
Aspiration hazard	Not an aspiration hazard.	
Chronic effects	Prolonged inhalation may	v be harmful.
12. Ecological informatior	ı	
Ecotoxicity		ied as environmentally hazardous. However, this does not exclude the equent spills can have a harmful or damaging effect on the environment.
Components	Species	Test Results

ioaccumulative potential	The product is not expected to bioaccumulate.		
Partition coefficient n-octa SDAG-6, 95%	nol / water (lo	og Kow) 0.032 Estimated	
obility in soil	Expected to be mobile in soil.		
ther adverse effects	The product contains volatile organic compounds which have a photochemical ozone creation potential.		

# 13. Disposal considerations

Disposal instructions	Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.		
Local disposal regulations	Dispose in accordance with all applicable regulations.		
Hazardous waste code	The waste code should be assigned in discussion between the user, the producer and the waste disposal company.		
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).		
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.		

# 14. Transport information
