

## BSE/TSE STATEMENT MCT COCONUT BASED USP FCC

May 24, 2018

### To Whom It May Concern:

The ingredients and the sources of these ingredients for MCT Coconut Based USP FCC have been researched for origin. The product is produced from 100% Caprylic, Capric Triglycerides that have no origin from animal sources. There are no components derived from the brain, spinal cord, bone marrow and eyes. The raw materials for this product are derived from vegetal sources. To the best of our knowledge, there should be no Bovine Spongiform Encephalopathy (BSE)/Transmissible Spongiform Encephalopathy (TSE) issues with this product because of the sources of raw materials.

The statement above is based on our current level of knowledge related to our product.

If we can be of further assistance, please do not hesitate to contact us.

Best regards,

**Gustavo Garcia**  
Regulatory Compliance Manager
