

**HALAL STATEMENT – SODIUM HYDROXIDE PELLETS**  
(PPS495, Rev. 1.0, 04/21, CWB)

Sodium Hydroxide Pellets sold by Greenfield Global USA Inc. are synthetically derived and produced via the chloralkali process. This involves the electrolysis of an aqueous solution of sodium chloride.

Sodium Hydroxide Pellets do not have a formal Halal certification, however based on the following process statements it meets the basic requirements of Halal:

- Raw materials used in manufacture of Sodium Hydroxide Pellets are not of animal nor enzyme origin.
- Raw materials do not contain nor come in contact with products of animal origin, yeast or ethyl alcohol at any point of the manufacturing process.
- Sodium Hydroxide Pellet production does not involve use of yeast, bacteria, enzymes, or solvents in the manufacturing process.
- Manufacturing facilities producing and processing Sodium Hydroxide Pellets do not handle any products of animal origin.

HALAL refers to any object permissible to use according to Islamic Law. Determination of suitability of any Greenfield Global USA Inc. products for any application is at the discretion of the end users. Please contact your Halal Certification Authority to obtain definitive clarification of this matter.
