## Change Control Notification 24-001

### Glycerin Fill Site and Packaging Change

Please circulate to the appropriate department(s) and personnel within your organization

Dear Customer:

This letter is to inform you that there are two supply chain changes impacting WORLD GRADE® Glycerin 275-gallon poly totes and 55-gallon poly drums. These products are packaged for Greenfield by a third-party.

The first change is to inform you that the packaging site has been bought out, closed, and will now be filled at a new site. The new packaging site has been qualified and approved by Greenfield's Quality Department. Please note, that this is only a change in the supply chain of material. There is no change to the producer or packaging process for Glycerin.

The second change is to inform you that there is a minor cosmetic change to the 55-gallon poly drum in appearance only. The drums you will receive in the future are supplied by Mauser; the previous drums were supplied by Greif.

Impacted Products:

Item number	Catalog Number	Product name
101231	349WORLDIBC272	Glycerin, WG, 272 Gallon Tote
102907	349WORLDIBC200	Glycerin, WG, 200 Gallon Tote
103281	349WORLD55	Glycerin, WG, 55 Gallon Poly Drum

#### Timing of Change:

You will see this change with the next order you receive.

#### Additional Information:

The quality of the material continues to meet or exceed our product specifications. The catalog number you currently order under will not be changed.

For any questions regarding this notification, please contact your local sales representative or reach our sales team by emailing [usasales@greenfield.com](mailto:usasales@greenfield.com).

Best regards,

Katie Smoogen
